

Your Information Pack

Dear user,

You will find below the content of your information pack, it gathers all the information you will need to buy the right tire for your vehicle.

Here is the information from michelin.ca on your tire search for:

Your selected tire

MICHELIN® Energy™ Saver A/S

Passenger Car/Minivan

Our ultimate fuel-efficient passenger car tire is ideally suited for drivers looking to maximize fuel economy without compromising long treadlife and all season safety.

Ultimate fuel efficiency

All-season safety

Long treadlife

All-season

Key benefits

Michelin always aims to bring together multiple performances.

At MICHELIN, we continuously push safety, durability and fuel efficiency, and even more performances, all at the same time and with no trade-offs. That's what we mean by MICHELIN® Total Performance™, which has and will always be our difference on every tire.

Up to 8% More Fuel-Efficient than Standard Tires, to Save you Money. ¹

EnergySaver Construction™ combined with a special type of tread rubber, keeps the tire cooler — helping your engine improve fuel efficiency and reduce CO2 emissions.

Lasts up to 25,000 KM Longer than a Leading Competitor. ²

MaxTouch Construction™ maximizes the tire's contact with the road and evenly distributes the forces of acceleration, braking and cornering, resulting in longer wear.

Stops up to 2.4 Meters Shorter for Added Safety. ³

Silica-based tread compound provides all-around traction and no-compromise braking that results in up to 2.4 meters shorter stopping distance than a leading competitor. ²

Keep in mind

You will find below some helpful questions to ask your dealer :

- If the tire you've selected is not immediately available at your dealer, you can always ask them to order it. It may be available in just 1 – 2 days.
- Remember that a good price does not reflect a tire's value: a tire that last longer, helps you save fuel, and keeps you safe in every condition has greater value in the long run.

Manufacturer's Suggested Retail Price (MSRP) is for a tire only (i.e., excluding services such as mounting, balancing and tire disposal) and is applicable for all provinces and territories of Canada. Actual pricing may vary based on retailer, region, tire size and other factors. Retailers are free to set individual prices. Please check with your local Michelin tire dealer for pricing near you.

1. Based upon rolling resistance testing versus Bridgestone® Turanza® EL400, P185/65R15 size tire. Fuel savings are estimates only. Actual on-road savings may vary.

2. Based on third-party wear test results versus Bridgestone® Ecopia EP100, P185/65R15 size tire.

3. Based on internal wet braking test results versus Bridgestone® Ecopia EP100, P185/65R15 size tire.

OE Code [Original Equipment Key]: F = Ford, C = Chrysler

>>The dimensions shown are average tire design values for tires measured on specified measuring rim widths. Some tires may vary from this value by +/- 3% of the section height (affecting overall diameter), and +/- 4% of the section width.

WARNING: Serious or fatal injury may result from improper mounting, from underinflation/overinflation/overloading or from tire damage due to abusive use.

Michelin North America (Canada) Inc. does not endorse the operation of any vehicle in an unsafe or unlawful manner.

Exceeding the safe, legal speed limit is neither recommended nor endorsed.

IMPORTANT: While all-season tires are designed to provide reliable performance in moderate winter conditions, the use of four (4) tires is recommended for optimal performance and may be mandatory in certain jurisdictions.

DANGER: Never mount a 14" diameter tire on a 14.5" rim, or a 15" diameter tire on a 15.5" rim, or a 16" diameter tire on a 16.5" rim, or a 17" diameter tire on 17.5" rim, or a 19" diameter tire on a 19.5" rim, or a 22" diameter tire on a 22.5" rim, or a 24" diameter tire on a 24.5" rim.
